As with most Li-ion batteries, and this will require a certain way of charge - it is sufficient to note that the capacity of the battery of the electronic cigarette will decrease if you overload a constant low resistance evaporators. It is best to alternate two batteries.

Specifications:

Battery Type: Li-ion rechargeable
Recharge time: 2-3 hours
Battery capacity - 350 mAh (providing up to 300 activations per cigarette)-5V voltage charger
Life - from 250 to 300 recharges
Color: Black
The battery has an automatic overheat protection (if the button is held for more than 15 seconds).

Warranty: 6 months
Warning! Charge the battery with original charger Device! Otherwise there is a danger of fire!
The warranty is voided in the event of any unauthorized use of components!
If you do not intend to use the battery for a long time it is advisable to remove it from atomayzera and store it half charged in a cool place away from direct sunlight.
