Ask a question about this product
Manufacturer China Shenzhen

900 milliampere-hour battery for electronic cigarette works with all atomayzeri and kartomayzeri for eGo, eGo-C, eGo-T and 510 (kartomayzeri C4, CE4, CE6, Kanger, Dual Coil, etc.) and provide sufficient capacity to cigarette use for an entire day with heavier smoking and smoking normal two days. Have the option to exclude or include a quick push of the button five times, in which the display flashes several times and the battery is off or on. In discharging flashes continuously.
As with most Li-ion batteries, and this will require a certain way of charge - it is sufficient to note that the capacity of the battery of the electronic cigarette will decrease if you overload a constant low resistance evaporators. It is best to alternate two batteries.
The battery has a voltage regulator from 3.2 to 4.8 volts allows you to precisely adjust the amount of steam and stroke respectively. There are short-circuit protection for that off.
Voltage control is performed by the bottom of the battery that rotates.
Do not use this battery with low resistance evaporators (eg CE4 V3 with 1.8 Ohm. Heater) because it can damage the electronics even at full blast protection as tension!
Specifications:
Battery Type: Li-ion rechargeable
Recharging Time: 3-4 hours (with battery Device 420mAh)
Battery Capacity - 900mAh (provides up to 1,100 activations per cigarette)
Life - from 110 to 160 recharges
Color: Black & Steel
The battery has an automatic overheat protection (if the button is held for more than 15 seconds).

Warranty: 6 months
Warning! Charge the battery with original charger Device! Otherwise there is a danger of fire!
The warranty is voided in the event of any unauthorized use of components!
If you do not intend to use the battery for a long time it is advisable to remove it from atomizer and store it half charged in a cool place away from direct sunlight.
