Descriptible for people who want to try electronic cigarettes, but smokers are serious. Low cost but powerful battery and good vaporizer. In addition, you can use the eGo-C with 510 standard evaporator. The tank is filled and unscrew the mouthpiece at the top of the evaporator liquid and pour or syringe. The battery is manually activated by pressing a button (five times faster pressing)

**The kit contains:**

1x Manual Battery 650mAh EGO \*

1x CE4 evaporator \*\*

1x adapter (charger) from contact to USB - 420 mAh

\* Manual battery model with automatic protection against overheating of the evaporator (if inadvertently holding down more than 15 seconds). A fully charged battery provides up to 1,000 activations.

One loaded \*\* SS4 evaporator fits 1.6 ml liquid nicotine and delivers up to 500 breaths, equivalent to 30 cigarettes smoked. Evaporator can be recharged repeatedly with nicotine liquid.

**Dimensions:**

- Length of cigarette: 155 mm

- Diameter: 14 mm

**Warranty:**

6 months battery and charger devices in the kit. Note that the evaporators of all kinds of electronic cigarettes over time change transmission taste and the amount of steam - usually a period after which this happens or burned for about a month.

Keep the set away from children!
