Manufacturer [China Shenzhen](#)

Successor to the hugely popular e cigarette eGo-C! The new E-lips no longer using standard cartridges with wool and model (also call "Tank" - the "tank" in English, hence the model name), which is filled with fluid and directly provides longer operation without recharging. Uses a different system with replaceable heads evaporators. Only replace the evaporator head of depreciation or incineration, which is 3 times cheaper than eGo-T vaporizer. Problems with the flow of fluid from the magazine are minimized.

It is suitable for women or for people who want the elegance and the small size of the cigarette. The tank is filled by removing the cap on the bottom of the magazine or by a syringe. Charging with the USB cable to the cigarette itself that is charged directly to 5 volts.

The kit contains:

- 2x 360mAh Elips battery * Manual
- 2x evaporator Elips **
- 5x transparent type of filling empty Elips ***
- 1x charger) from contact to Elips (5V)
- 1x pillowcase for cigarette
- 1x detailed user manual in Bulgarian

* Manual battery model with automatic protection against overheating of the evaporator (if inadvertently holding down more than 15 seconds). A fully charged battery provides 700 activations. Battery life is about 380 charges. The charging time is 3-4 hours.

Elips ** vaporizer works with Elips fillers. For efficient operation of the electronic cigarette should be replaced periodically.

Elips *** one loaded cartridge holds 1.1 ml of liquid nicotine and provides 200 to 250 breaths, which is equivalent to 10 cigarettes smoked. The cartridges can be refilled repeatedly with nicotine liquid.

Dimensions:

- Length of cigarette: 103 mm

Warranty:

6 months battery and charger devices in the kit. Note that the evaporators of all kinds of electronic cigarettes over time change transmission taste and the amount of steam - usually a period after which this happens or burned for about a month.

Keep the set away from children!

No persons under 18 years!
